

Trustee Who?

By Reader Staff | September 5, 2025

Following the resignation of former Trustee Tabitha Foster, a fourth Village of Cloudcroft (VoC) Trustee seat is now open for mayoral nomination and council appointment by majority vote of the remaining three trustees.

The vacancy comes at a challenging time for Cloudcroft's village government, which has experienced significant turnover in recent years. Cloudcroft has had three mayors in the last 13 months, and the last two years have seen five different village clerks.

The open trustee position adds another layer of uncertainty to a village administration already working to rebuild institutional knowledge and establish continuity in governance.

The appointment process requires the mayor to nominate a candidate, who must then receive approval from a majority of the remaining trustees. Community members interested in serving on the board will need to express their interest and qualifications to village leadership.

As Cloudcroft continues to navigate its transformation, the constant turnover has led to a loss of institutional knowledge and continuity, causing significant concerns among village community members about the stability of local government.
